

How it Works

Each EDIT team includes a mentor, health care providers, a supervisor, and you.

All for One

The team works with you to make a list of areas to focus on and supports you with tools to make healthy choices. The goal is to make healthy, lasting changes.

Experienced Help

The mentors have experience and know what you are going through, because they have been there. They will start by meeting with you weekly to help you find the services that best fit your needs.

Connecting to Care

Your mentor can address the fears and questions you may have and will also help coordinate your care with your providers.

Who Can Enroll in EDIT?

The Emergency Department Intervention Team (EDIT) is available to Pacificsource Community Solutions members in Marion or Polk counties. The program typically focuses on members with high emergency use. High ER use is typically defined as:

- 3 non-emergency visits in 30 days
- 6 non-emergency visits in 6 months
- 10 non-emergency visits in a year

Enroll in the Program

Emergency Department Intervention Team (EDIT)

Helping People Build
Healthy Lives

WVPHealthAuthority.org

What is EDIT?

The Emergency Department Intervention Team (EDIT) helps people learn when to go to their Primary Doctor and when to use the Emergency Department. The program is culturally and linguistically responsive, offering equitable and inclusive access.

We help you make the best healthcare choices for you. The best choice is different for everyone. The choice depends on what you need. Your lifestyle. Your goals.

EDIT can help members with:

- Building a support system
- Increasing your quality of life
- Coping with problems better
- Developing life skills
- Learning how to work with other agencies
- Finding support groups
- Learning more about your illness
- Knowing more about the drugs you take
- Feeling happier about your health
- Having more coordinated care with your doctors
- Having more control of your healthcare

Your Personal Health Toolbox

The Emergency Department Intervention Team program aims to help you be healthy and take ownership of your health care. **The EDIT team will help you fill your healthcare “toolbox.”**

This includes learning:

-  How to make the medical system work for your specific needs
-  When to see your doctor and when to go to the Emergency Room
-  About your personal strengths and abilities and how to cultivate them
-  How to build and maintain a healthy lifestyle

-  How to find the right care at the right place, at the right time
-  How to find specialty care for specific concerns when you need it
-  How to find mental healthcare and/or addiction treatment if you need it
-  How to find other services to help you stay healthy. This might be housing, education, jobs or other community services.

Combining this information helps members live the healthiest lives possible.
